Overall Length:

1.437 inches

Overall Diameter:

1.250 inches

Frequency Range Rating:

+400.0/+850.0 megahertz

End Application:

General application - test equipment (gen-ap-t)

Power Range:

+0.0/+2.5 watts

Special Features:

50.0 ohm impedance, for 0.875 in. Line section; function, detecting element, 2.5 watt

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-b
