**Overall Length:**

13.700 inches

**Overall Height:**

5.000 inches

**Overall Width:**

2.625 inches

**Unit Type:**

Amplifier

**Functional Classification:**

Aa-3.3

**Special Features:**

Manufacturers name: single trace amplifier; polarity of display is selectable, either normal or inverted

**Functional Description:**

High performance, wide bandwidth, single trace plug in amplifier designed primarily for use with the 7900 and 7700 tek oscopes; also compatible with all 7000 series tek mainframe oscopes

**Entry Date:**

80-09-01

**Reference Data And Literature:**

T.O. 33a1-2-222-2; tektronix 070-1400-00 and 070-1243-00

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T228-b
