Overall Length:

13.700 inches

Overall Height:

5.000 inches

Overall Width:

2.625 inches

Unit Type:

Amplifier

Functional Classification:

Aa-3.3

Special Features:

Manufacturers name: single trace amplifier; polarity of display is selectable, either normal or inverted

Functional Description:

High performance, wide bandwidth, single trace plug in amplifier designed primarily for use with the 7900 and 7700 tek oscopes; also compatible with all 7000 series tek mainframe oscopes

Entry Date:

80-09-01

Reference Data And Literature:

T.O. 33a1-2-222-2; tektronix 070-1400-00 and 070-1243-00

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-b
