Overall Length:

9.875 inches

Overall Height:

7.750 inches

Overall Width:

8.125 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

Between 50.0 hertz and 400.0 hertz

Case Material:

Aluminum

Case Surface Treatment:

Enamel

Accessory Components And Quantity:

Adapter 1; cable assembly, power 1; cable assembly, rf 1; calibrator, freq1; cover assembly 1; crystal unit 1; holder-adapter, crystal 1; instruction book 1

Internal Battery Accommodation:

Not included

Individual Channel Frequency:

50.0 megahertz

Individual Channel Quantity:

1

Frequency Accuracy In Percent:

-0.005/+0.005

Internal Calibration Crystal:

Included

Phase:

Single

Specification Or Standard:

An/usm-45 type

Reference Number Differentiating Characteristics:

As manufactured by control electronics co inc model no. Fc 121, dwg no. 21-105

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-e
