Inclosure Material:

Aluminum

Overall Length:

7.000 inches

Overall Height:

2.500 inches

Overall Width:

2.250 inches

Frequency Rating:

Between 6.89 gigahertz and 10.59 gigahertz

Power Takeoff Method:

Power take-off from coupling loop to coaxial line

Tuning Facility:

Provided

Fsc Application Data:

Tuner, miscellaneous communication equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T213-c
