Frequency Response Range:

+0.000/+100.000 kilohertz

Movement Type:

Electrostatic

Background Color:

White single indicator all ranges

Power Source:

Internal

Scale Selection Method:

Switch

Features Provided:

Portable

Movement Suspension Method:

Taut band

Style Designator:

Rectangular or square

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A310a0
