**Overall Length:**

12.200 inches

**Overall Height:**

5.000 inches

**Overall Width:**

2.600 inches

**Unit Type:**

Pulse generator

**Functional Classification:**

Bb-1.2

**Functional Description:**

Designed for testing fast logic and switching circuits; plugs into tm500 power module

**Entry Date:**

80-09-01

**Reference Data And Literature:**

T.O. 33a1-8-809-1; tektronix 070-1598-00

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T228-b
