| Width:                        |
|-------------------------------|
| 4.750 inches                  |
| Length:                       |
| 9.000 inches                  |
| Major Components:             |
| Panel plate schematic         |
| Inclosure Feature:            |
| Multiple item w/carrying case |
| Test Type For Which Designed: |
| Power; radar                  |
| Height:                       |
| 4.500 inches                  |
| Shelf Life:                   |
| N/a                           |
| Unit Of Measure:              |
|                               |
| Demilitarization:             |
| No                            |
| Fiig:                         |
| T228-a                        |
|                               |
