Overall Length:

2.700 inches

Overall Height:

1.250 inches

Overall Width:

1.700 inches

Component Type And Quantity:

1 capacitor and 1 coil

Special Features:

Mounting method and configuration: stud, two 3/8 inch diameter, spaced 1-1/4 inch apart center to center; fsc description: board e601, subassembly oscillator and amplifier

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
