## NSN 6625-00-542-1445

Oscilloscope Subassembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6625-00-542-1445

Overall Length:
2.500 inches
Overall Height:
1.125 inches
Overall Width:
1.125 inches
End Application:
Type no. An/usm-50
Component Type And Quantity:
1 capacitor and 1 reactor
Special Features:
Components mtd on terminal board which is riveted to chassis; reactor adjusted from bottom; usage design: contains resonant circuit for the
oscillator in marker generator; mounting configuration: mounts by 2 thd spade lugs; fsc application data: oscilloscope subassemblies, except
specially designed
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A511I0
