Overall Length:

22.125 inches

Overall Height:

22.375 inches

Overall Width:

12.375 inches

Component Quantity:

3

Locking Device:

Included

Component Controlling Agency:

Jcens; jcens; jcens

Component Name:

Frequency meter; cord; adapter connector

Component Identifying Number:

Cg-409/u type no. And fr-114/u type no. And ug-641/u type no.

Handle Quantity:

2

Locking Device Type:

Separate

Handle Location:

Each side

Special Features:

Watertight joint between lid and box

Material:

Wood and copper

Material:

Wood and copper

Surface Treatment:

Enamel

Surface Treatment:

Enamel

Fsc Application Data:

Case, test set, electrical and electronic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T358-a
