Overall Length:

10.000 inches

Overall Height:

6.000 inches

Overall Width:

10.000 inches

Dc Voltage Rating:

Between 0.5 volts and 20.0 volts

End Application:

Elec. Test equipment

Furnished Items And Quantity:

4 mallory rm-3 hearing aid a batteries, 1 eveready 455, burgess xx30 battery; 4 ft. Shielded cable w/plug-in connectors

Input Impedance Rating:

500000.0 ohms

Unit Type:

Standard

Mounting Method:

Case mounted portable

Special Features:

Impedance: 500000 ohms; input range: 0.5 to 20.0 volts; output impedance: 5500 ohms; max. Open circuit voltage: 3.0 volts; amplifier response: flat from 10 cycles to 30 kc; calibrated attenuator positions: 0, m10, m20, m30, m40 db; passband adjustable in half-octaves; adjustable low and high cut-off filters

Reference Data And Literature:

Scott inc. Data page

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A532p0
