Reliability Indicator:

Not established

Sensitivity Rating:

50.0 microamperes

Movement Type:

Moving coil, permanent magnet

Background Color:

White single indicator all ranges

Measurement Range:

+0.0/+500.0 milliamperes, dc single indicator 4th range

Features Provided:

Zero adjuster

Movement Suspension Method:

Jewel pivot base

Special Features:

Solder-sealed zero setscrew on back of meter

Fsc Application Data:

Test set, elect. Equipment

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
