Overall Length:

18.000 inches

Overall Height:

8.000 inches

Overall Width:

14.000 inches

Frequency Rating:

Between 50.0 hertz and 500.0 hertz

Installation Design:

Bench

Display Digit Quantity:

4

Phase:

Single

Special Features:

Portable, aluminum case with carrying handle; periodic calibration required; self-contained battery included; accuracy 0.01 pct

Functional Description:

Measures .001 to 1200 vac/dc; .1 to 12 mohm dc

Style Designator:

Round surface mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
