Overall Length:

2.700 inches

Overall Height:

1.190 inches

Overall Width:

1.190 inches

Component Type And Quantity:

1 capacitor and 1 coil and 1 resistor

Special Features:

Mounting method and configuration: stud, two 3/8 inch diameter, spaced 1-1/4 inch apart center to center; fsc description: board e701, subassembly enabler

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511I0
