Overall Length:
2.700 inches
Overall Height:
1.190 inches
Overall Width:
1.190 inches
Component Type And Quantity:
1 capacitor and 1 coil and 1 resistor
Special Features:
Mounting method and configuration: stud, two 3/8 inch diameter, spaced 1-1/4 inch apart center to center; fsc description: board e701,
subassembly enabler
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A511I0
