Overall Length:

6.281 inches

Overall Height:

3.959 inches

Overall Width:

4.608 inches

Environmental Protection:

Dustproof

Average Life Measurement:

Not rated

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Operating Control Method:

Automatic

Installation Design:

Mechanical

Control Type:

Local

Signal Data Type Per Channel:

Input channel proportional

Connection Type And Location:

Terminal block w/screw top

Connection Contact Type And Quantity:

14 terminal block w/screw external

Fsc Application Data:

Test set electronic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
