**Overall Length:**

9.000 inches

**Overall Height:**

8.750 inches

**Overall Width:**

19.000 inches

**Current Type:**

Ac

**Frequency Rating:**

Between 50.0 hertz and 410.0 hertz

**Voltage Rating:**

115.0 pounds per hour wet

**Fixed Frequency Rating:**

30.000 hertz and 1020.000 hertz

**Functional Classification:**

Bb-1.5

**Functional Description:**

Designed to facilitate test and adjustment of the conventional airborne vor navigation receivers

**Entry Date:**

80-12-15

**Reference Data And Literature:**

T.O. 33a1-8-858-3

**Relationship To Similar Equipment:**

6625-01-012-3296

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T320-j
