Overall Length:

19.000 inches

Overall Height:

7.000 inches

Overall Width:

8.000 inches

Scale Calibration:

10.0 milliohms to 1.2 megohms

Scaleaccuracy Rating In Percent:

-0.005/+0.005

Adjustment Method:

Variable resistor

Balance Indicator Type:

Galvanometer

Special Features:

8 decades plus 105 division rheostat, requires 4 terminal connections

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-d
