Overall Length:

9.125 inches

Overall Height:

0.875 inches

Overall Width:

5.750 inches

Mounting Configuration:

Rack mtd by one camloc fastener

Product Name:

Test set subassembly

Special Features:

Fixed mica dielectric capacitor 1; connector receptacle 2; crystal unit rectifying 1; fixed composition resistors 5; fixed film resistors 2; variable composition resistor 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A5110
