Current Type:

Ac or dc

Beam Quantity:

2

Screen Size:

5.1 by 8.5 centimeters

Sweep Circuits:

Included

Generator Driven Feature:

Included

Sweep Circuit Type:

Horizontal

Single Trigger Sweep Duration:

0.1 microseconds

Trigger Sweep Marker Intervals:

10 nanosecond and 10 mv

Trace Storage Tube:

Included

Maximum Storage Writing Speed:

1000000000.0 millimeters per second

Storage Potential:

Continuously adjustable to provide optimum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-g
