**Application Design:**

Test set case

**Overall Length:**

4.602 inches

**Overall Height:**

1.875 inches

**Overall Width:**

4.355 inches

**End Application:**

Support equipment a-10 aircraft

**Criticality Code Justification:**

Feat

**Special Features:**

One insulated wire lead 2.000 inches long and one 3.000 inches long; one insulated high voltage lead 18.000 inches long. Weapon system essential

**Material:**

Plastic

**Material:**

Plastic

**Supplementary Features:**

Four mounting posts with internally threaded metal inserts

**Fsc Application Data:**

Test set, elec. Equip.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T23700
