Application Design:

Test set case

Overall Length:

4.602 inches

Overall Height:

1.875 inches

Overall Width:

4.355 inches

End Application:

Support equipment a-10 aircraft

Criticality Code Justification:

Feat

Special Features:

One insulated wire lead 2.000 inches long and one 3.000 inches long; one insulated high voltage lead 18.000 inches long. Weapon system essential

Material:

Plastic

Material:

Plastic

Supplementary Features:

Four mounting posts with internally threaded metal inserts

Fsc Application Data:

Test set, elec. Equip.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T23700
