General Description:

Extends frequency measuring range of an/usm-26 from 100 mc to 1e kmc by zero beating a harmonic of integral osc against the unknown frequency, maybe used alone as frequency meter with less accuracy, /note/ used w/frequencymetering equipment for measuring am, cw and pulsed frequency up to 12, 000 mc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
