General Description:

Vdisc type with 2 100 ohm wollaston wire bolometer elements mtd on a mica disc in series, bias current 4.5 ma, resistance 200 ohms, frequency range 500 to 10000 mhz, temperature coefficient positive, vswr 1.5 sensitivity type 8 ohms/mw

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
