**Overall Length:**

1.500 inches

**Overall Width:**

1.375 inches

**End Application:**

Model no. 979

**Component Type And Quantity:**

1 rectifier and 6 resistor and 2 screw

**Special Features:**

Jhex nut 2; lock washer 2; used as part of rectifier circuit in multimeter; three 3/32 in. Diameter mtg holes arranged in an isosceles triangle spaced 1-1/8 in. C to c at base and 1-1/4 in. Altitude; o/a depth 0.062 in.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A511I0
