Overall Length:

1.500 inches

Overall Width:

1.375 inches

End Application:

Model no. 979

Component Type And Quantity:

1 rectifier and 6 resistor and 2 screw

Special Features:

Jhex nut 2; lock washer 2; used as part of rectifier circuit in multimeter; three 3/32 in. Diameter mtg holes arranged in an isosceles triangle spaced 1-1/8 in. C to c at base and 1-1/4 in. Altitude; o/a depth 0.062 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A511I0
