Overall Length:

5.000 inches

Overall Height:

4.750 inches

Overall Width:

5.000 inches

Case Material:

Plastic

Accessory Components And Quantity:

2 resonance indicator lamps

Internal Battery Accommodation:

Not included

Indicator Type:

Incandescent lamp

Instrument Calibration Range:

55 to 400 mc range

Calibration Accuracy Rating:

Porm 2 pct accuracy

Special Features:

Cylindrical transparent plastic case used to enclose the circuit elements so that they may be seen at all times

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T134-h
