Overall Length:

8.250 inches

Overall Height:

12.500 inches

Overall Width:

8.250 inches

Current Type:

Dc

Case Material:

Wood

Case Surface Treatment:

Any acceptable

Frequency Range Rating:

+157.000/+211.000 megahertz

Accessory Component Quantity:

1

End Application:

Type no. le-46-a

Internal Battery Accommodation:

Included

Voltage Rating:

1.5 volts and 135.0 volts

Frequency Band Quantity:

3

Modulation Type:

Pulse

Accessory Component Name:

Container cover

Crystal Controlled Feature:

Not provided

Calibrated Signal Output Range:

Not rated

Modulator Location:

Internal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T320-j
