Overall Length:

2.438 inches

Overall Height:

1.500 inches

Overall Width:

1.625 inches

Frequency Range Rating:

+8.5 to 9.7 gigahertz

Sensing Element Type:

Thermistor

Inductive Pickup Loop Type:

Fixed

Battery Case:

Not provided

Special Features:

Broad-band mount, pretuned at factory; also incl disk thermistor for temp compensation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T134-a
