End Application:

Dual preset generator assembly, army ord, 8096618

Circuit Construction Type:

Solid state

Pulse Duration Per Channel:

10.000 microseconds output channel

Polarity Per Channel:

Negative output channel

Pulse Peak Amplitude Per Channel:

100.000 volts output channel

External Dc Operating Voltage In Volts:

200.0 single voltage

Special Features:

Externally synchronized

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
