| Mounting Type:                                    |
|---|
| Portable  |
| Width:  |
| 6.000 inches                                      |
| Overall Length:                                   |
| 8.500 inches                                      |
| Length:   |
| 103.000 feet                                      |
| Overall Height:                                   |
| 13.000 inches                                     |
| Overall Width:                                    |
| 8.750 inches                                      |
| Current Type:                                     |
| Dc  |
| Case Material:                                    |
| Steel   |
| Case Surface Treatment:                           |
| Enameled  |
| Chart Drive Method:                               |
| Spring  |
| Operational Speed:                                |
| 3 or 6 in. Per hour                               |
| Recording Chart Type:                             |
| Roll  |
| Instrument Calibration Range:                     |
| 0 to 100 ma                                       |
| Accuracy Range In Percent:                        |
| -1.0/+1.0   |
| Recording Device Quantity:                        |
| 5   |
| Recording Device Type:                            |
| Pen, chronograph                                  |
| Spring Time Cycle:                                |
| 8.0 days  |
| Spring Winding Method:                            |
| Hand  |
| Pointer/scale:                                    |
| Included  |
| Case Color:                                       |
| Gray  |
| Reference Number Differentiating Characteristics: |

Pacs, name, acdc, bdhs and bdjd
