**Circuit Current For Which Designed:**

Ac or dc

**Overall Length:**

10.375 inches

**Scale Division Quantity:**

150 single indicator single range

**Frequency Rating:**

Between 25.0 hertz and 125.0 hertz

**Dial Scale Marking Color:**

Black single indicator single range

**Accuracy In Percent:**

-0.250/+0.250 at full scale single indicator single range

**Background Color:**

White single indicator single range

**Features Provided:**

Portable

**Circuit Attachment Method And Quantity:**

6 binding post

**Phase:**

Single

**Special Features:**

Shielded from external magnet fields

**Material:**

Wood

**Reference Number Differentiating Characteristics:**

Ansx, bhdc, bhjc, amse, aczb, faaz, aqan, aewk, axnp, bjdj, bhhz

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A310a0
