Circuit Current For Which Designed:

Ac or dc

Overall Length:

10.375 inches

Scale Division Quantity:

150 single indicator single range

Frequency Rating:

Between 25.0 hertz and 125.0 hertz

Dial Scale Marking Color:

Black single indicator single range

Accuracy In Percent:

-0.250/+0.250 at full scale single indicator single range

Background Color:

White single indicator single range

Features Provided:

Portable

Circuit Attachment Method And Quantity:

6 binding post

Phase:

Single

Special Features:

Shielded from external magnet fields

Material:

Wood

Reference Number Differentiating Characteristics:

Ansx, bhdc, bhjc, amse, aczb, faaz, aqan, aewk, axnp, bjdj, bhhz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
