Overall Length:

1.500 inches

Scale Division Quantity:

10 single indicator 2nd range

Overall Diameter:

3.500 inches

Mounting Bolt Circle Diameter:

3.160 inches

Mounting Arrangement Style:

Three hole/stud bolt circle

Sensitivity Rating:

374.0 microamperes

Accuracy In Percent:

-3.0/+3.0 at full scale single indicator 2nd range

Mounting Facility Type And Quantity:

1 flange

Measurement Range:

-10.0/+6.0 decibels single indicator 1st range

Special Features:

3 hole/stud 0.150 in. Mtg feature dia

Special Markings:

Red band from 32.5v to 45v, blue band at 50v, green band from 60v to 67.5v

Surface Treatment:

Enamel

Style Designator:

Round surface mtg

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
