Overall Length:

3.750 inches

Overall Height:

1.187 inches

Overall Width:

2.437 inches

Test Item Connection Method:

Connector

Cubic Measure:

10.848 cubic inches

Special Features:

Inserts calibrated signal into main vertical amplifier

Supplementary Features:

Not used as a extension

Fsc Application Data:

Test sets, electronic systems, except specially designed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A537k0
