Overall Length:

5.493 inches

Overall Diameter:

3.125 inches

Component Quantity:

1

Locking Device:

Not included

Component Controlling Agency:

Jcens

Component Name:

Indicator

Component Identifying Number:

Id310/arn type no.

Material:

Aluminum

Material:

Aluminum

Surface Treatment:

Enamel

Surface Treatment:

Enamel

Fsc Application Data:

Airborne radio navigation set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-a
