Width:

6.375 inches

Length:

13.125 inches

Dc Voltage Rating:

110.0 volts

Major Components:

Cabinet extension switch box, extension cord, test cord with test plug battery cord

Accessory Component Quantity:

5

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Included

Material And Location:

Wood carrying case

Inclosure Feature:

Single item w/carrying case

Test Type For Which Designed:

Is an automatic interrupter that provides simulated dial pulses for testing the operation of step by step dial central office switching equipment with simulated conditions of line loop resistance and leakage

Operating Test Capability:

Transmits groups consisting of 9 pulses produced at the rate of 14 pulses per second

Phase:

Single

Height:

8.625 inches

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
