Overall Length:

4.125 inches

Overall Width:

4.188 inches

Mounting Configuration:

Plug-in mtg secured w/2 captive screws

Product Name:

Test set subassembly

Special Features:

Moisture and fungus resistant and tested per sig dwg no. Sc-a-46578a, capacitors 12; connectors 2; electron tubes 3; inductor 1; resistors 22

Fsc Application Data:

Receiver-transmitter-test set group, except specially designed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A5110
