**Overall Length:**

4.125 inches

**Overall Width:**

4.188 inches

**Mounting Configuration:**

Plug-in mtg secured w/2 captive screws

**Product Name:**

Test set subassembly

**Special Features:**

Moisture and fungus resistant and tested per sig dwg no. Sc-a-46578a, capacitors 12; connectors 2; electron tubes 3; inductor 1; resistors 22

**Fsc Application Data:**

Receiver-transmitter-test set group, except specially designed

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A511I0
