End Application:

Electronic test equipment

Special Features:

Original name digital recorder; print rate to 5 lines per sec; column capaci type 11 columns; 12 position number wheel; numerals 0-9; a minus sign and a blank; line spacing zero; single or double; standard 3 in. Roll paper required; analog output; for potentiometer recorder 0-100 mv min. Load resistance 0.5 megohm, calibrate control; for galvanometer recorder 0-1 ma into 5000 ohms or less, zero and calibrate controls

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T198-a
