Body Material:

Plastic, thermosetting

Terminal Quantity:

2

Terminal Type:

Solder lug

Overall Length:

0.738 inches

Overall Height:

0.375 inches

Overall Width:

0.688 inches

Frequency Rating:

350.0 kilohertz

Case Material:

Plastic, thermosetting

Maximum Current Rating:

4.7 amperes

Mounting Configuration:

One 0.098 in. Diameter mtg hole centrally located

Inductance Rating:

15.0 microhenries

Accuracy Range In Percent:

-1.0/+1.0

Dc Resistance Rating:

16.5 ohms

Special Features:

Case/body molded

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T263-d
