Overall Length:

1.490 inches

Overall Diameter:

1.162 inches

Mounting Configuration:

Two 0.188 in. Diameter mtg holes

Gap Type:

Nonrotary

Electrode Material:

Tungsten

Adjustability Feature:

Not included

Special Features:

Radio active, incorporates radio active symbol, marked caution radioactive and 10-207155-11, sealed gap type. Breakdown voltage

900-1200vdc

Fsc Application Data:

Exciter, ignition, jet engine

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T208-b
