Ac Voltage Rating:

115.0 volts

Dc Voltage Rating:

28.0 volts

Frequency Rating:

400.0 hertz

Electrical Power Source Relationship:

Operating

Internal Battery Accommodation:

Not included

Inclosure Feature:

Single item w/carrying case

Special Features:

To name: asymetry control detection test adapter; used to analyze and checkout of flaps and slats asymmetry detector 3326000a

Reference Data And Literature:

To 33d3-4-132-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
