**Ac Voltage Rating:**

115.0 volts

**Dc Voltage Rating:**

28.0 volts

**Frequency Rating:**

400.0 hertz

**Electrical Power Source Relationship:**

Operating

**Internal Battery Accommodation:**

Not included

**Inclosure Feature:**

Single item w/carrying case

**Special Features:**

To name: asymetry control detection test adapter; used to analyze and checkout of flaps and slats asymmetry detector 3326000a

**Reference Data And Literature:**

To 33d3-4-132-1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T228-a
