Overall Length:

19.000 inches

Overall Height:

7.875 inches

Overall Width:

5.250 inches

Scale Division Quantity:

12 single indicator single range

End Application:

Used on hercules f25 aircraft

Accuracy In Percent:

-2.0/+2.0 at full scale single indicator single range

Power Source:

External

Scale Selection Method:

Terminal

Operating Voltage Rating In Volts:

115.0 ac

Phase:

Single

Functional Classification:

Aa-1.1

Entry Date:

91-02-12

Surface Treatment:

Enamel

Style Designator:

Rectangular or square

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A310a0
