Overall Length:

2.171 inches

Overall Height:

0.562 inches

Overall Width:

0.906 inches

Component Type And Quantity:

5 capacitor and 1 coil and 3 resistor and 1 transformer and 1 transistor

Special Features:

Usage design: in crystal switch assembly circuit a2000; mounting method and configuration: plate, screw, one 5/8 inch long by 1.2 inch wide mounting slot in end of board, screwed to end plate; major components: connector, receptacle, electrical 1; printed circuit board 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511I0
