Overall Length:

23.875 inches

Overall Height:

17.000 inches

Overall Width:

12.938 inches

Current Type:

Ac

Frequency Rating:

Between 50.0 hertz and 60.0 hertz

Accessory Components And Quantity:

Adapter bnc to binding post 1, adapter 3 to 2 wire 1, light filter smoke gray 1, manual instructions 2, patchcord 18 inch bnc to bnc 2, probe 10x 2

Voltage Rating:

Between 90.0 volts and 272.0 volts

Sweep Circuits:

Included

Generator Driven Feature:

Included

Sweep Circuit Type:

Horizontal

Amplitude Calibrating Voltage Waveform:

Square wave

Calibrated Screen Scale:

Included

Trace Storage Tube:

Included

Storage Potential:

Continuously adjustable

Trace Erasing Provision:

Provided

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-g
