Functional Classification:

Aa-9.1

Functional Description:

Required to aid off-line maint for magnetic tape units; when operating with ibm 2400-seris unit permits operation of read, write, rewind and rewind-unload without interference to functioning of an/fps-85 radar system

Entry Date:

70-04-01

Reference Data And Literature:

Ibm field engineering maint.Manual, magnetic tape units-controls 2401, 2402, 2403, 2404 model 1, 2, 3; agered no.370 af contract af3 (602) 2763, ibm p/n 5420330

General Description:

C/o 115vac, freq.60 hz, single phase, simulates ibm 2403/2803 tape control, provides control of units under test/facilitates procedure-rw head alignment, start/stop time measure., records density/tape drive controls; tape speed 75in.P/sec.Tape width 0.500 in., 7 or 9 tracks; controls for write; read continuos, start/stop, auto-cycle, dim.12 in.By 8 in.By 7 in.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
