Overall Length:

12.000 inches

Overall Height:

9.500 inches

Overall Width:

14.000 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

400.0 hertz

Mounting Configuration:

Complete inclosure, sets on test bench, not secured

Indicator Type:

Synchro meter 1st group

Panel Material:

Aluminum

Phase:

Single

Special Markings:

Fuse, id-351, id-526, on-off, pilot lamp

Quantity:

1 2nd group

Surface Treatment:

Enamel

Surface Treatment:

Enameled

Fsc Application Data:

Test set, radio, except specially designed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T122-b
